.....

.....

50. I met a man without teeth. (Rewrite the sentence ending;man.)

.....

.....

SECTION B

51. Read the passage below and then answer, in full sentences the questions that follow.

Last week, Kimbo Primary School had a recreational day. This is an annual **event** in the school. It is one event that parents, teachers and pupils look forward to every year. Normally, the preparations involve the children's parents. When the head teacher came up with this idea half a decade ago, there was a general parents' meeting. During the meeting, the parents agreed to pay five thousand shillings each in preparation for the great day in term three. The money would be kept by the chairperson of the Parent Teacher Association (PTA) in the school. To ensure its safety, a bank account for recreational activities was opened.

To be able to bring fun to school, a temporary recreational centre was created last week. A number of equipment such as merry go rounds, swings trampolines, bouncing castles and others were hired for recreation. In addition, donkeys and camels were also brought for the learners to ride on at an extra cost paid to the masters in charge at the venue. The merry go rounds were operated by Chinese technicians to ensure that whoever flew and rotated in air was safe.

As usual, boys will be boys. They could not miss playing their favourite game, football. On the recreational day, the school football field was crowded with boys. The number of players and rules did not matter as they played. From corner to corner, they madly kicked and chased the ball. After all, the referee was not around. On the other hand, the girls swung and skipped the ropes.

When all other activities of the day came to an end, the head teacher addressed the learners and the parents. This was at around 6:30p.m. He thanked everyone for making the day colourful. Everybody was excited as the day ended officially with the school anthem. What a wonderful recreational day it was!

Questions

- a. Where was a recreational day held last week?

.....
.....

b. What amount of money did each parent pay for the recreational day?

.....
.....

c. Who was entrusted with the responsibility of keeping the money for recreational activities?

.....
.....

d. Mention any one recreational equipment that were put at the school's temporary recreational centre.

.....
.....

e. Which pupils were allowed to have a ride on the camels?

.....
.....

10	Etakote Robert	M	Attending Aunt Teddy's wedding ceremony	Mr. Mayindo Danis	20/4/2024

KEY: P – Primary

M – Male

F – Female

Questions

- a) From which school was the above information obtained?

.....
.....

b) Who was likely to infect other pupils if not allowed to go home?

.....
.....

c) How many teachers were approached for permission that day?

.....
.....

d) For how long did Oyesigire Sarah wait for school fees balance?

.....
.....

e) Why did Katwire Ernest seek permission?

.....
.....

f) Which pupils could be related to each other according to the table?

.....
.....

g) Why would you think Oringo Wilbroad is in Primary Seven?

.....
.....

h) Which teacher permitted the most pupils to go home?

.....
.....

i) On which day did Kiirya Abdullah's family celebrate Iddi?

.....
.....

j) What shows that the pupils study in a mixed school?

.....
.....

54. Study the poem below and answer, in full sentences, the questions that follow.

In our country Uganda,
Every road user is buried in fear,
Fear of frequent road accidents,
The daily hunters of people's lives,
That usually end abruptly.

Every day traffic flows and flows,
To destinations near and far,
With great dreams travelers move,
Only to be swallowed by the merciless hunters,
The frequent road accidents.

Let's sing the prevention song together,
We, the road users are the problem,
Why drive or ride carelessly?
Why forget the Highway Code?
Why ignore the traffic lights?

Ladies and gentlemen, fellow road users,
Better arrive at your destinations late,
There is no prize for speeding vehicles,
Apart from early deaths, fractures, suffering,
Let's join hands to fight this monster.

Mapit De Salome

Questions

- a) Where is the writer of the poem?

.....

.....

b) How do road accidents take people's lives?

.....
.....

c) To which places do the travelers go in the poem?

.....
.....

d) According to the third stanza, who should be careful while on the road?

.....
.....

e) What does the writer want road users to remember?

.....
.....

f) Why do you think some people speed their vehicles?

.....
.....

g) Mention any two effects of speeding vehicles from the poem.

(i)

(ii)

h) By whom has the poem been written?

.....

i) Give another word or group of words with the same meaning as each of these underlined words in the poem.

i) abruptly

ii) destinations

55. In 120 – 180 words, write a composition about school children's routine during holidays. Use these points to guide you: helping parents, playing games, watching television, visiting relatives and doing holiday work.

- (i).....
(ii).....

b) Name the optical used to see very tiny object.

.....
.....
.....

(c) How do drunkard drivers lead to road accidents?

.....
.....

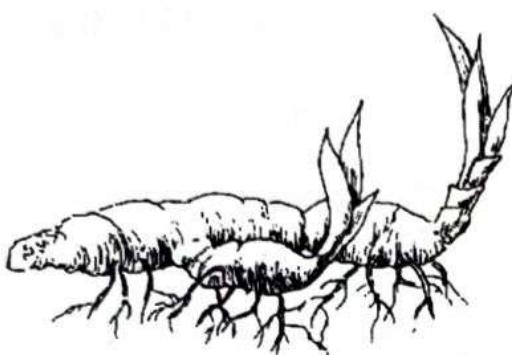

46 The table below shows a group of mammals in A and their examples in B

A	B
Chiroptera	Porpoises
Ungulates	Tasmanian devil
Cetaceans	Vampire bats
Marsupial	Wathog

(a) Write against each group below, its example from B

- (i) Chiroptera.....
(ii) Ungulates.....
(iii) Cetaceans.....
(iv) Marsupials.....

47. The diagram below shows a plant with an underground stem .
Use it to answer questions that follow.

(a) Name one plant that has the above stem.

.....

(b) How are plants with the above stem propagated?

.....

(c) State any one characteristic common to the above plant.

.....

(d) Name the root system in the above diagram.

.....

48. (a) Name any two methods used in collecting health data.

(i)

(ii)

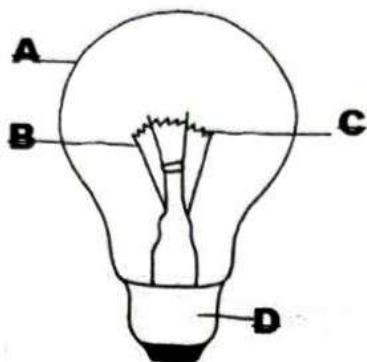

- (b) Write down one example of information collected during a health survey.

.....

(c) Identify one importance of carrying out demography in communities.

.....

49. The diagram below shows an electric bulb. Use it to answer questions that follow.

(a) What is the function of part marked with letter B ?

.....

(b) How is part marked with letter C adapted to its function?

.....

.....

(c) Identify the energy change that takes place when the electric bulb is working.

.....

(d) Apart from a burning candle, mention any one other incandescent source of light in the environment.

.....

.....

49 (a) State any two uses of bee wax to man

(i)

(ii)

(b) What process enables drone bees to develop from unfertilized eggs?

.....

(c) Identify one way of stocking bee hive.

.....

51. (a) Identify two ways how water is used as an energy resource.

(i)

(ii)

(b) Apart from uranium, give any one other example of radioactive minerals.

(i)

(c) What term describes the way how fossils are formed?

.....

52. a) What scientific term describes the practice of rearing rabbits?

(b) Mention any two advantages of using a caged hutch in rabbit keeping.

(i)

(ii)

(c) State the difference between calving and farrowing as used in animal management.

.....
.....

53 (a) What is the use of wind in the environment?

.....
.....

(b) Identify one way in which the property air exerts pressure is important in our daily life:

.....
.....

(c) Mention any two uses oxygen to man apart from respiration.

- (i).....
(ii).....

54. a) Identify one indicator sickness in pigs

.....

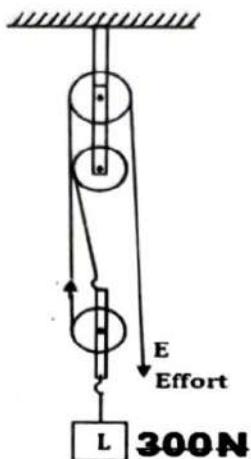

b) Give any two systems used for rearing pigs in Uganda.

- (i).....
(ii).....

c) Define the term steaming up as used in piggery?

.....
.....

55 The diagrams below show a pulley system. Use it to answer questions that follow.

(a) Name the pulley system above.

.....
.....

(b) Complete the above pulley system by putting the remaining rope and and "E' and arrows

.....

(c) State one importance of pulleys in our daily life.

.....

(d) Calculate the effort needed to over come the load in the above pulley system.

.....

GOOD LUCK

Candidate's Name:

Candidate's Signature:

Stream:

Read the following instructions carefully:

1. The paper has two sections: A and B. Section A has 20 questions and section B has 12 questions. The paper has 12 pages altogether.
2. All working for both sections A and B must be shown in the spaces provided
3. All working must be done using a blue or black ball-point pen ink or fountain pen. Any work done in pencils other than graphs and diagrams will not be marked.
4. No calculators are allowed in the examination room.
5. Unnecessary alterations/changes of work may lead to loss of marks.
6. Any handwriting that cannot easily be read may lead to loss of marks.
7. Do not fill anything in boxes indicated: "For Examiners' Use Only."

TOTAL		

SECTION A: 40 MARKS

Answer all questions in this section

Questions 1 to 20 carry two marks each

1. Add 3 5 + 2 3
 2. Write 419 in words.
 3. A lesson which lasted 40minutes ended at 8:10a.m. At what time did it start?
 4. Kapere has 8.75 kg of carry powder to be packed in packets of 0.25 kg each. How many packets will Kapere make?

5. Study and complete the sequence below:

1, 3, 7, 13, 21, _____

6. Simplify: $4k - 5m + 2k - 3m$

7. Write "twenty thousand, four hundred four" in figures.

8. Solve: $3(x + 4) = 24$

9. Express 3 kg to grams.

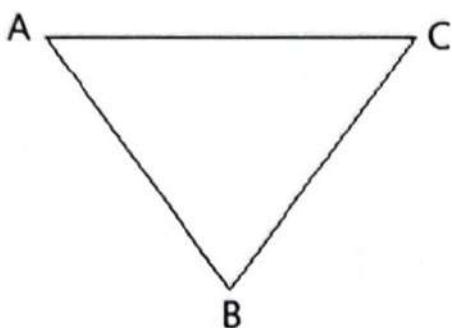

10. What number has been expanded to get:
 $(4 \times 10^2) + (2 \times 10^0) + (6 \times 10^{-1}) + (1 \times 10^{-2})$?

11. Given that $p = -4$, $q = 3$ and $c = -2$, find the value of $\frac{pq}{c}$.

12. Work out the value of x : $3 + 4 = x$ (finite 5)

13. Solve: $2^{3k} \div 2^k = 16$

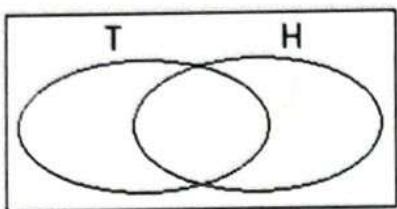

14. Bisect angle ABC in the figure below.

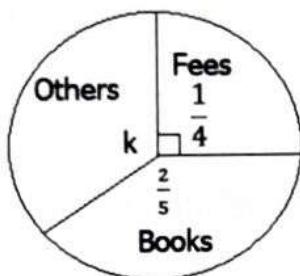

15. The probability that a car picked at random from the park is made in Japan is $\frac{5}{8}$. What is the probability of picking one that is not made from Japan?

16. The price of a skirt increased by 10%. If the new price is sh. 44,000, find the original price of the skirt.

17. Shade the complement of H

18. Study the pie-chart below and use it to find the value of k.

19. Find the square root of $5\frac{4}{9}$.

20. A fisherman saw a boat on water on a bearing of 060° . What is the bearing of a fisherman from the boat?

SECTION B: 40 MARKS

21. Given the digits 2, 0 and 8

- a) Form the smallest 3-digit number using the digits above. (1 mark)

- b) Write the numeral formed in (a) above in scientific notation. (2 marks)

- c) Show the above numeral on the abacus. (2 marks)

22. a) Subtract $6m - 8$ from $4m - 6$ (2 marks)

- b) Solve the equation: $2 + r = \frac{3}{5}r + 6$ (3 marks)

23. Angella paid sh. 70,000 for all the items she bought, shown in the list below.

➤ A dress and a skirt each at sh. 11,500

➤ A hand bag for sh. 20,000

➤ A pair of shoes at a 10% discount.

a) How much did she pay for the pair of shoes?

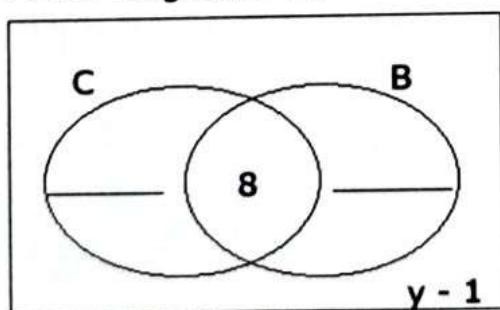

(3 marks)

b) How much was the discount on the pair of shoes? **(2 marks)**

24. At a gathering of men, $2y$ men ate beef (B) only, 50 men ate chicken (C), 8 men ate both chicken and beef while $y - 1$ ate neither of the two dishes.

a) Complete the Venn diagram below.

(2 marks)

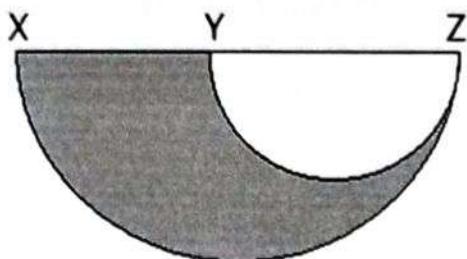

- b) If 8 men did not eat chicken, find the value of y . **(2 marks)**
- c) A dish representative is to be selected, what is the probability that he likes none of the dishes? **(1 mark)**

25. A trader bought 300 bags of maize each weighing 30 kg.

- a) How many tonnes of maize did the trader buy? **(3 marks)**
- b) If he hired a vehicle which carries 3 tonnes per trip, how many trips did he make to transport of the maize? **(2 marks)**

26. In the diagram below, $XZ = 28$ cm and YZ is half of XZ . Find the area of the shaded part. (take $\pi = \frac{22}{7}$) **(5 marks)**

27. Golomba, Baleke and Katanku contributed some money towards a party in the ratio of 3:2:4 respectively. Kitanku contributed sh. 52,000

a) Find their total contribution. **(3 marks)**

b) Find their average contribution. **(1 mark)**

29. A boat sailed from point T a distance of 40km westwards to point R and then continued 30km on a bearing of 225° to point Q
- a) Draw a sketch to show the movement of the boat. **(1 mark)**

- b) Using a scale of 1cm to represent 5km, draw an accurate diagram to show the location of the points T, R and Q. **(4 marks)**

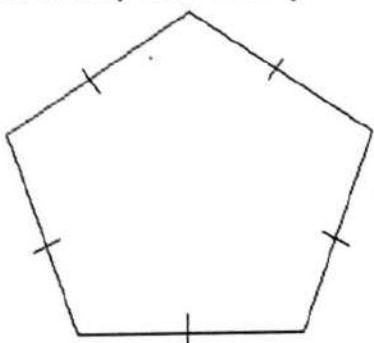

28. The table below shows the rate at which different currencies were sold and bought in Commercial bank during the month of May. Use it to answer the questions that follow.

Currency	Selling in Ug.shs	Buying in Ug.shs
1 US dollar (\$)	3,800	3,650
1 Euro (€)	4,020	4,000
1 Rwandese franc	5.0	4.0

- a) If Bob had Ug.sh. 15,200,000, how many Euros did he get? (2 marks)
- b) Mubiru came from Rwanda with 5,292,500 Rwandese francs and exchanged for US dollars. How many dollars did he get from the bank? (3 marks)

30. a) Find the number of sides of a regular polygon with an exterior angle of 45° . (2 marks)

b) By illustration, how many triangles has the polygon below? (1 mark)

c) Calculate the interior angle sum of the polygon above. (2 marks)

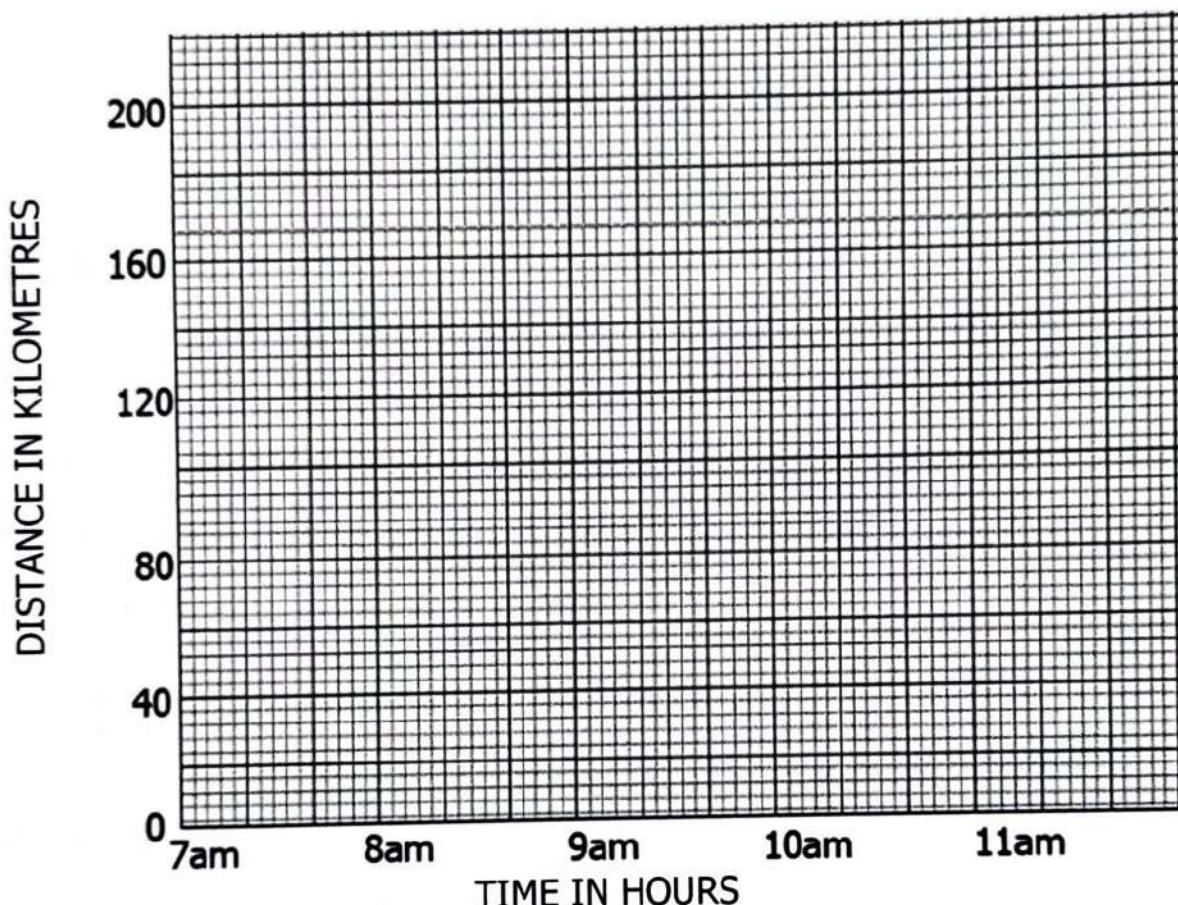

31. A milk vendor sells 300 litres of milk daily using a cuboidal container that measures 15 cm by 10 cm by 8 cm.

- a) How many such containers does he sell in a week? (3 marks)
- b) If each container costs sh. 1,800, how much money does he collect from the milk in a week? (2 marks)

32. Town L and town K are 200km apart. A bus left town L at 7:00am, to got to town K through town J. It moved at a speed of 80km/hr for an hour from town L to town J. At town J, it stopped for 40minutes and then continued to town K at an average speed of 60km/hr.

a) Draw a graph to show the bus' journey.

(5 marks)

END
